

# Celebrate our CLM day together

The European committee has organized an online meeting to celebrate our CLM day on December 13. They invite all CLM around the world to join us together in this opportunity.

We believe it is a moment to celebrate our vocation together with a feast.

After debating on different possibilities we came out with two ideas.

## First idea:

We ask all CLM who wants to send Alberto a **short video** (not even a minute length) with a simple schema:

**This is \_\_\_\_\_ from \_\_\_\_\_ and I am proud of being CLM because of \_\_\_\_\_**

Example:

*This is Lucia from Italy and I am proud of being CLM because it has allowed me to share my life with the Nuba people in Sudan where I have learned a lot about welcoming and the importance of community.*

With all these small videos Alberto will try to make a common one that we may use for vocational animation. The deadline will be until December 14.

You can send the video in your own language. Please send also the text of what you say in the video.

## Second idea:

We call all CLM for a **zoom meeting next December 13 at 6 pm Central Europe time** (11 am in Guatemala, Chicago (USA) and Mexico, 12 in Peru, Colombia or Ecuador, 2 pm in Brasil, 5 pm in Portugal or Ghana, 6 pm in Congo, Chad or RCA, 7 pm in Mozambique or Egypt, 8 pm in Uganda or Ethiopia. Please check the time of your country in case we have a mistake.

It will be a time of an international and intercultural feast to celebrate our missionary vocation.

The meeting will be very simple:

- A short **presentation**.
- 15-20 minutes of **common prayer** where we can give thanks for our CLM vocation.
- Time to **share a small 2 minutes' video** from each country. The idea is simple. We suggest to choose some pictures of our missionary activities and some typical images from our country and put it together with a typical music from our country (there are many simple programs to do it in Internet, or moviemaker, PowerPoint.... But if someone needs help Alberto is available).  
It will be something similar of what we do when we celebrate a night-cultural-party in our international meeting. We want to celebrate our vocation from where we are. Something that will encourage us in our CLM common vocation. If you want to put a message (a short sentence with an idea), try to do it in English and Spanish.
- 15 minutes **"Coffee break"**. We will use this website link (<https://rambly.app/#/rooms/lmc>) that will allow us to meet with other people in the

meeting in small groups or couples in a simple way. We just have to approach the person and have a short conversation.

- **Finish together.** Concluding this moment, we will gather together to end the activity.

Ps. We ask all countries to send their videos with the pictures and music to Alberto before the meeting so he can play them during the gathering.
